

# GRESKO HOME GENERATOR PROGRAM

**22KW Generator with Transfer Switch**

**Fuel Source: Natural Gas or Propane ONLY**

**Voltage: 120/240 Standard**

## What type of Generator do we sell?

- Gresco sells all Generac product lines.
- The stock unit is a Generac 22KW Response Series with (1) transfer switch and pad included.
- EPA certified for non-emergency applications.
- The "Response Series" is a Utility Grade generator.
- Wi-Fi enabled, smartphone, tablet, and personal computer.

## What would I need as far as Propane Tank or Natural Gas?

- The minimum size propane tank is 250 gallons. It will differ in different areas.
- We have researched the cost & it is approx. \$2,000 depending upon other gas appliances you may own already.
- Contact your Natural Gas provider, for more info.

## Can I finance a unit?

- Yes, through your local credit union.
- If a credit card is used to purchase, add 3% to the price; no personal checks are accepted, only Certified Checks after Management approval.
- Gresco will not be responsible for any payment to installer or financial institution.
- Payment will need to be paid in full before products leave Gresco unless otherwise approved.

## What is the cost to maintain my generator?

- The Generac certified installer will offer a maintenance contract when installed if its an Anderson Power installer.

## Would this generator power my home?

- Yes, a 2,500 sq. ft. home or smaller.
- If you have (2) 200- amp disconnects in your home, you will need a second transfer switch.
- A site survey will determine the extra transfer switch material and generator size.

## What is the warranty?

- 7 years, parts and labor from Generac.
- Generac will offer an additional 3 years also. Contact your Account Manager for pricing.

## What is the cost of the Generator Sales / Installations?

Please check with your local representative to determine pricing. A site survey will need to be done to determine pricing for installations.
